

Share Your Story!

We're Excited to Hear From You!

We'd love to learn about your PLTW Core Training experience, see your photos, and feature your story on our website!

When you return to the classroom, we encourage you to continue sharing your PLTW experience with us and invite your students to do so as well. To get started, we've outlined a few writing prompts to consider:

Educators

How has PLTW Core Training prepared you to transform your classroom?

What did you learn from the industry experiences embedded within PLTW Core Training, and how will those help you bring career connections back to the classroom?

How have you put what you learned through PLTW Core Training into practice?

Students

What real-world solutions have you designed in your PLTW classes?

What advice would you give to new PLTW students?

What challenges have you faced in PLTW, and how has facing those challenges made an impact on your life?
